The Windmill

The house we had last year was amazing but this year we've completely taken your camp experience to a whole new level! This time you will be living in a beautifully renovated, 35000^{m2} Windmill, in the mountains just outside of Malaga, in nature which means we have zero light pollution where we can see all the beautiful stars ! Have you ever seen the Milky Way on a clear night?

The house comes with everything you'll need including super comfy beds and plenty of showers and bathrooms to accommodate all our needs. Our house this year is fully equipped from large common rooms where we will have a movie projector showing BladingFilms at night, to a natural garden where our food comes from as well as many different out door activities such as ZipLining, a Outdoor Adventure park, Rockclimbing, Caves, Basketball court, Practice Rail and i almost forgot to mention a beautiful pool on the roof top.

If you thought last year was awesome, be ready for something even better!

Unique Skateparks

The Campers from last year spoke and we listened, we have extended the camp now to 5 nights and 6 Days! We have planned to visit at least 2 skateparks per day as well as street jams and city routes around different cities surrounding Malaga!

Each of the skateparks is unique so you're guaranteed to have fun riding a variety of different style parks.

Malaga is home to the largest outdoor skatepark in Europe and they just built another brand new park which we will visit!

At the skate parks there will be "One on One" personal lessons from the coaches available to all who wish!

Daily Activities

We have amazing daily excursions planned such as to the majestic Spanish town of Granada which has the world famous Alhambra Castle! We will tour around the castle and then visit a huge skatepark they have! We're doing it all! We're also going to visit Ancient Megalithic Ruins high in the mountains of Malaga as well a visit to the very unique, Ancient Castle, The Castle of Colomares on the beach of Benamadena.

Let's not forget plenty of adventures to different beaches to cool and skate routes all along the Southern Coast of Spain in such cities as Marbella, Malaga, Fuengirola, Antequeda, Benamadena, Cartama, and San Pedro. I almost forgot to mention one of the highlights of the tour is a trip to Ardales which has a fresh water lake that is an absolutely breathtaking color of turquoise with water so clean you can drink from it.

Here we'll have a relaxed lunch and swim and do some very safe cliff jumps!

We are much more than just a skating camp.

Testimonials

Felix - 15 - Denmark

My most memorable moment was when i misty flipped over Montre!! I made many new friends, and they are all awesome. I had the best time ever, and **if anyone has the chance to go to Blading Camp DO IT!!!**

Björn Hunger - 19 - Austria

There was so much energy in every moment so i think the main thing i've learned was to push each other further to get things done and having a good time no matter when! I think that's one of the best parts of Blading-camp to meet so many new and diverse people from so much different countries!

Anya - 15 - France

I learned how to grind!! Thanks to Manon and Mery, (the coaches) I managed to do four basic grinds all in the same day! I really hope I could come next year! It would be amazing to go to Málaga again! I just want to thank everyone that participated to this project, because I'll never forget this amazing week!

Gia - 28 - Italy

I am a mom of two little princess and Blading-Camp was the best experience of my life. In this camp i learned a lot of things not only for skating, but also life lessons. I met new friends from all over the world, i learned new languages and how it is easy share my things with people that i have never meet in my life.
